

The H K Wentworth Group

11th May 2009

The following AF products have been independently tested for anti-bacterial efficacy:

| | |
|--|--------------------|
| Phone-Clene | PC-Clene |
| Headset-Clene | Head-Clene |
| Foamclene | Screen-Clene |
| Maxiclene | Camera Lens Clene |
| Board-Clene (inc White Board Wipes) | Multi-Screen Clene |
| Isowipes | |
| Clene-Swipe (CSSA, CSSP, CSSR & CSSW Only) | |

The results indicated that the above products achieved a 99.9% reduction of each of the following:

Bacteria: Staphylococcus aureus
Pseudomonas aeruginosa
Escherichia coli

Mould: Aspergillus niger

Yeast: Candida albicans

Yours Sincerely,

Jade Bridges
R&D Administration Manager
